A Letter from Metro Tiles

BELOVED ARCHITECTS,

At Metro Tiles, we understand that the heart of any space lies in the hands of architects who bring vision, creativity, and sustainability to life. That's why we are proud to present our Diamante Collection Planks, a perfect blend of cutting-edge design and eco-conscious innovation, crafted to elevate your interior projects.

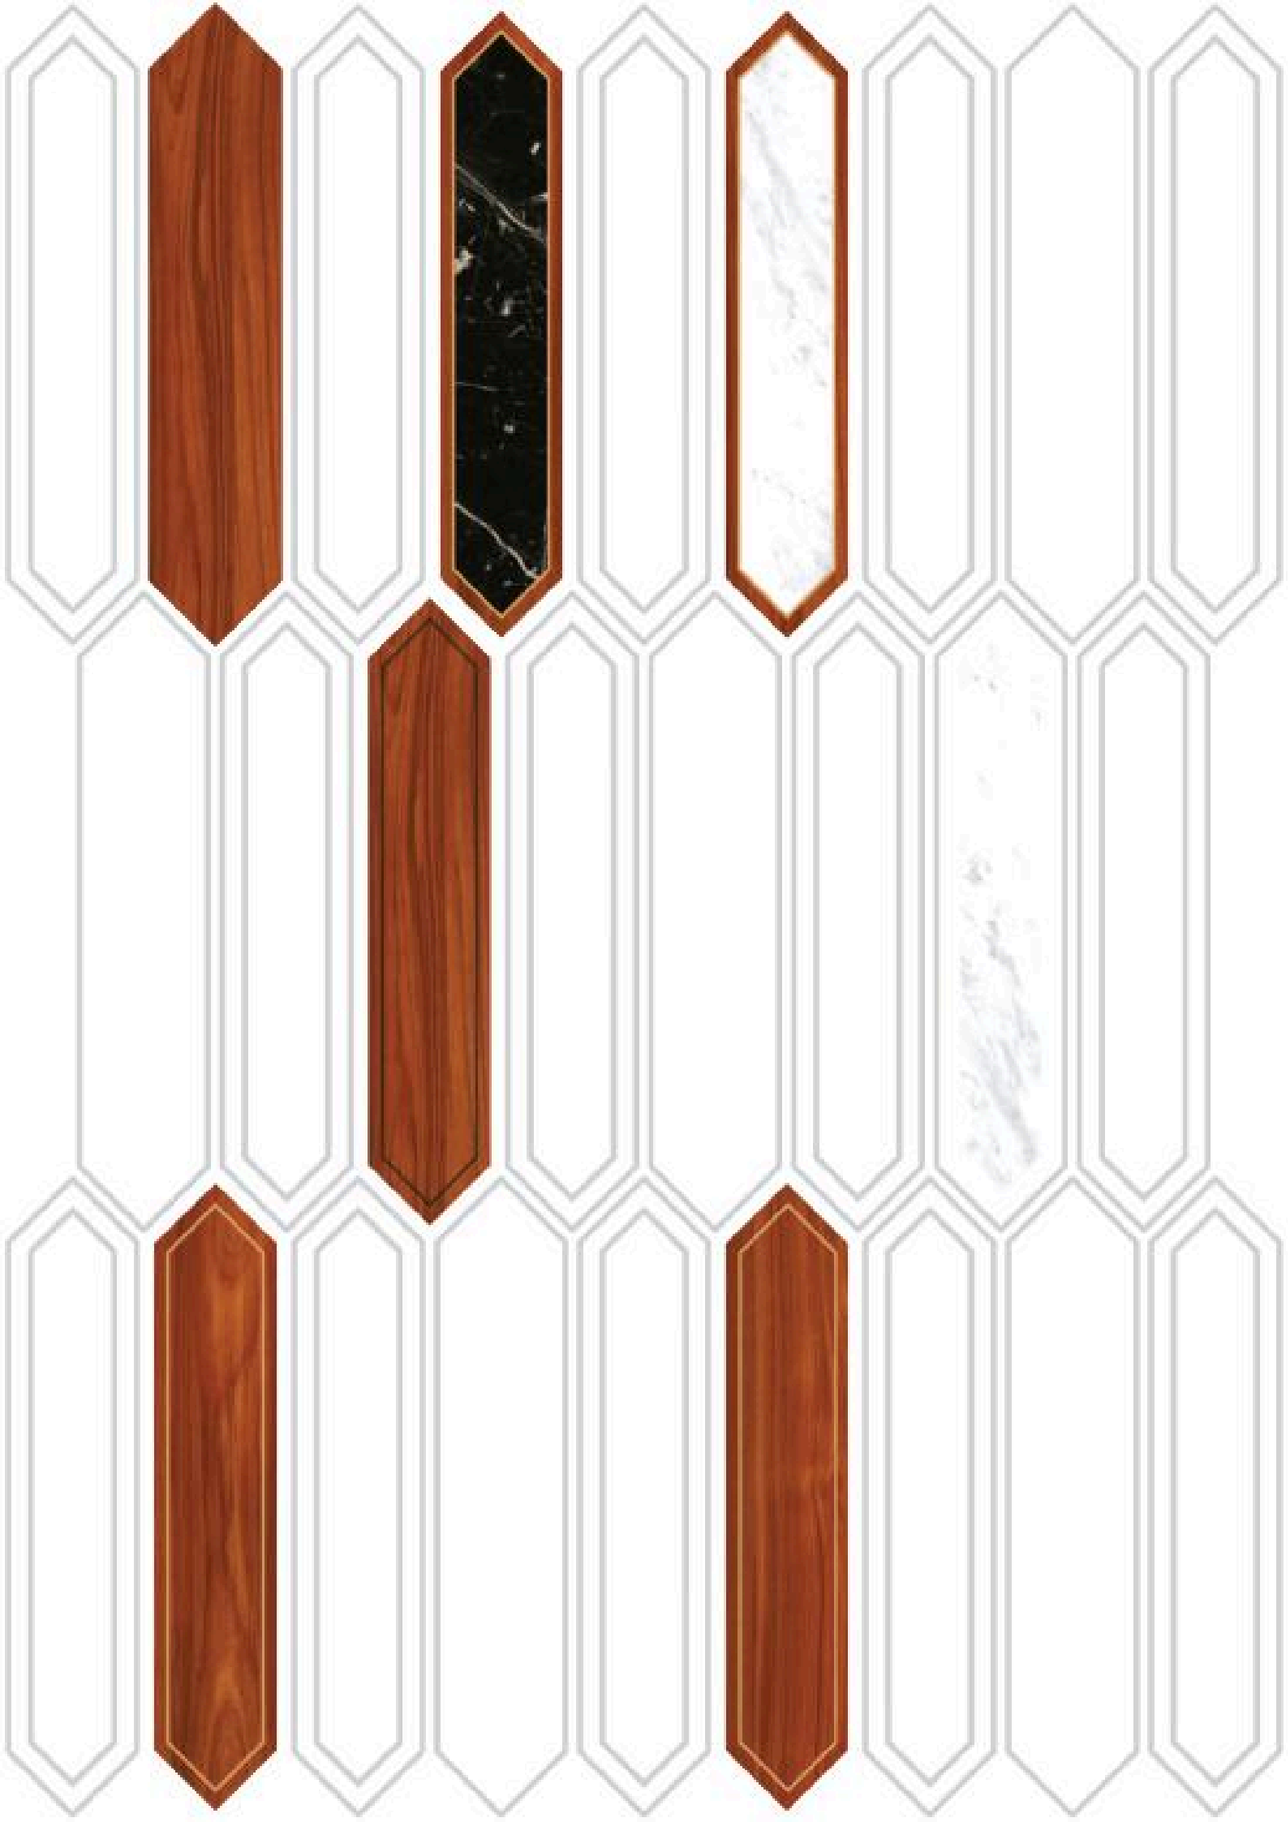

In an era where preserving our natural resources is more important than ever, the Diamante Collection serves as a sustainable alternative to real wood. By choosing our wood-effect planks, you can capture the timeless beauty and warmth of natural wood without contributing to deforestation. Our planks are designed to mimic the look and texture of wood, offering a durable, environmentally friendly solution that helps reduce the strain on forests and promotes long-term ecological balance.

We believe that design is an expression of creativity and innovation, and with the Diamante Collection, we offer you the freedom to push boundaries, reimagine spaces, and create lasting impressions. Whether you're designing residential, commercial, or hospitality spaces, our planks offer the perfect canvas to transform your ideas into reality.

We invite you to explore the possibilities with the Diamante Collection and partner with us in creating sustainable, exceptional designs for the future.

Metro Tiles

DIAMANTE

The great principle of architecture is to make a building harmonize with its surroundings, to make it serve its purpose and yet to possess beauty. From (The Four Books of Architecture), 1570.

Preserving Nature, Redefining Wood

At the heart of every decision lies a responsibility—to create without harming, to innovate without depleting. Our wood-inspired planks embody this philosophy. Designed to offer the warmth and beauty of real wood, they are crafted using 100% natural minerals and sustainable materials, ensuring that no tree is felled in the pursuit of elegance.By choosing these planks, you are not only embracing a stunning, timeless design but also taking a stand to protect our forests and preserve nature for future generations. This is not just a choice of style; it's a choice for the planet.

By choosing these planks, you are not only embracing a stunning, timeless design but also taking a stand to protect our forests and preserve nature for future generations. This is not just a choice of style; it's a choice for the planet.

DIAMANTE

CURVED EDGES

Uncompromising design, where every curve is crafted with precision.

A seamless transition from surface to edge, born from the perfect blend of form and function, creat a smooth, continuous flow that enhances the beauty of every space.

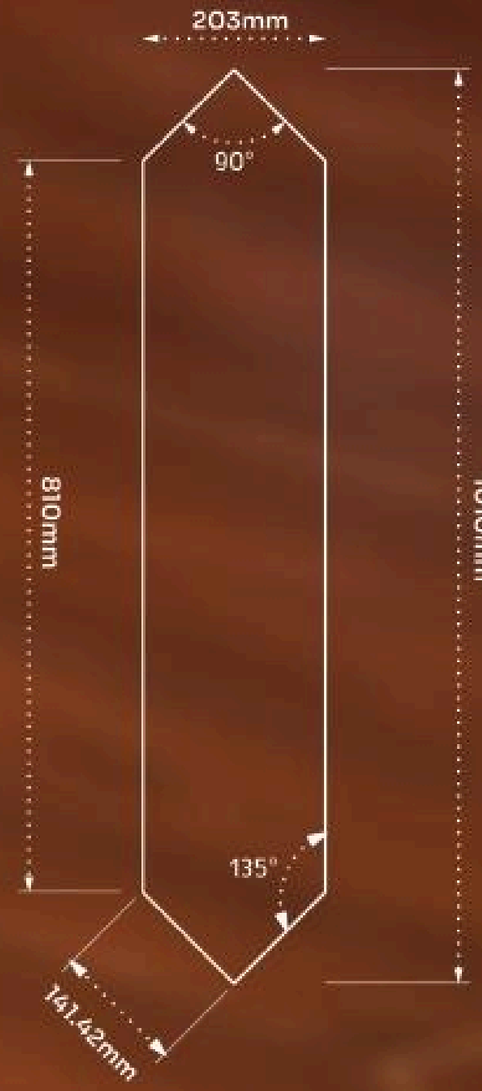

TRULY AUTHENTIC DESIGNS

The Diamante Collection offers a unique range of designs that blend natural beauty with innovative craftsmanship. Featuring five distinctive effects, the collection showcases the timeless appeal of wood, enhanced by elements like brass channels and marble, to create a sophisticated and luxurious look. Whether it's the warmth of pure wood, the elegance of white or black marble combined with wood, or the seamless flow of wood channels, each design is crafted with the finest natural minerals and raw materials.

The collection not only elevates the aesthetic of any space but also reflects a commitment to sustainability and quality craftsmanship.

Designed for architects, designers, and visionaries seeking extraordinary flooring without compromising natural elements.

Crafted for those who dare to dream, this flooring redefines spaces with extraordinary designs that remain unseen yet naturally timeless. Each plank is a masterpiece, featuring a punch of wood, a stunning brass profile look without real brass, and a sophisticated blend of white and black marble-inspired textures.

Backed by an advanced R&D team and cutting-edge technology, this flooring combines innovation with artistry. Every detail is meticulously designed to bring elegance, durability, and uniqueness to your interiors, ensuring a seamless blend of nature and modern craftsmanship.

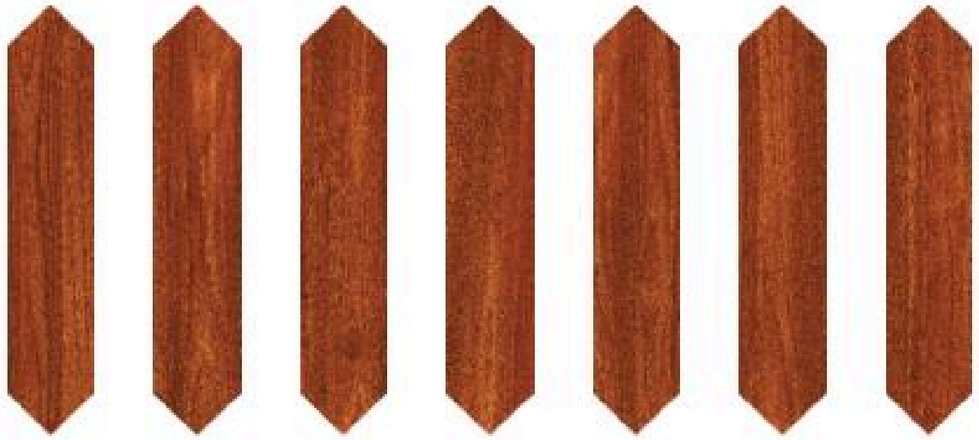

Innovative curved edge with detailed pattern

Curved edge planks with a punch blend the beauty of wood, marble, and brass. Preferred by architects, their non-rectified edges create a natural wood feel, while detailed patterns enhance elegance, making them a perfect choice for timeless interiors.

Incredible Whitish Grey surfaces born from nature, crafted with soul.

With years of expertise, we've perfected the art of flooring. Our moulded planks embody the raw essence of grey wood while seamlessly integrating the refined beauty of marble and brass.

Every plank tile is crafted with precision, ensuring a perfect balance of texture, durability, and elegance. Thanks to our advanced technology and skilled craftsmanship, this collection brings an organic yet luxurious feel to any space, making it an architect's favorite choice.

Not all planks tiles are same. Some break the mold—literally.

Our curved edge planks defy the ordinary, blending the warmth of wood, the elegance of marble, and the richness of brass. Their soft, non-rectified edges create an organic flow, mimicking the raw beauty of nature. Each intricate pattern tells a story of craftsmanship, transforming floors into works of art. No sharp lines, no rigid boundaries—just seamless design that architects swear by.

Burnt wood charm that shape sensational spaces.

Thanks to our expertise, we've redefined flooring by blending nature's finest elements with modern craftsmanship. Our moulded planks capture the raw feel of wood, the elegance of marble & the brilliance of brass, creating a surface that feels as authentic as it looks.

Each detail is carefully shaped using advanced technology, ensuring durability, depth, and seamless aesthetics. Try it to makes everyone fall in love with it and shape your dream of raw wood into a reality.

Seamless Sophistication with Black Charm

Our curved edge blackish shade plank tiles blur the lines between nature and design, weaving the warmth of burnt wood, the elegance of marble, and the richness of brass into one seamless masterpiece. With soft, non-rectified edges, they flow effortlessly, creating an organic charm that architects adore. Because true beauty is never confined by straight lines.
